

Welcome to the HYMS Research Office January Newsflash!

Please forward on as you feel appropriate and send any items of potential interest to: **Research** for inclusion in our next **Newsflash**. We would also like to be able to inform you of each other's **recent publications** or **research outputs** and would be very grateful if you would inform us of details as and when they are published.

Happy New Year!

News!

Health Research Authority

On 1st December 2011, this newly formed NHS organisation was established as a Special Health Authority, with the aim of protecting and promoting the interests of patients and the public in Health Research.

University of York Centre for Chronic Diseases and Disorders (C2D2)

The University of York is a recipient of the Institutional Strategic Support Fund award from the Wellcome Trust, which offers financial support for universities to enhance institutional strategies for the biomedical sciences. More information is available on the **C2D2 website**  but meanwhile, you may like to put **Monday 9th January, 1pm – 4pm** in your diary when there will be a networking session. Considerable funds are available to prime new research activity and support translational work and this will be an opportunity to meet potential collaborators.

For Information:

North and East Yorkshire R&D Alliance Unit

- **The following Standard Operating Procedure (SOP) has been reviewed and published. Please [click here](#)**

R&D/S74: Making Amendments to Alliance Trust Sponsored Research Studies (version 2.0)

This is released for training and will be formally implemented on 1st January 2012

- **The following Standard Operating Procedures (SOPs) and Forms have been reviewed and published. Please [click here](#)**

R&D/S11: Archiving of Research Study Documents (Version 2.0)

R&D/S14: Granting NHS Permission (version 3.0)

R&D/F12: NHS Permission Checklist (NIHR Portfolio Studies) (version 3.0)

R&D/F13: NHS Permission Checklist (Non-Portfolio Studies) (version 4.0)

R&D/F56: Archive Box Label (Version 2.0)

These are released for training and will be formally implemented on 16th January 2012.

Please note that earlier versions of these SOPs, templates and forms are therefore superseded on the above implementation dates. Superseded versions of all SOPs should be kept in study files to enable identification of the version in use at any stage during the research. Where any paper copies of the superseded SOP exist, the person using the SOP should put a line through the front page of the superseded version and write "superseded" across the top.

Self-directed training must be carried out by all staff to whom the SOP is relevant and this training documented in their training record. Staff should take time to read and fully understand the SOP and relevant documents, ensuring that they are able to implement the SOP on the date given above. If clarification is needed then please contact the **SOP Controller** who will arrange additional training. All staff should complete their training before the date that the SOP is formally implemented. All staff are responsible for maintaining their own SOP Training Logs. Training Logs can be downloaded from the North and East Yorkshire Alliance website (link above).

SOP Training will also be provided by the R&D Unit as required and is a mandatory requirement for research teams prior to any Alliance Trust Sponsored CTIMP being given Final NHS Permission.
