Successful completion of your MSc in Physician Associate Studies degree will enable you to undertake the national physician associate licencing exam. On successfully passing the licencing exam you will be able to join the Physician Associate Managed Voluntary Register (PA-MVR) and practise as a professional physician associate.

Throughout your study, you will undertake training in different clinical environments and interact with patients in the hospital, general practice or community. As a physician associate student, the care and safety of your patients is your first concern. You must ensure that your conduct justifies your patients’ trust in you and in the profession. Although the physician associate profession does not currently have a formal regulatory body, the profession is aligned to the standards of the medical and healthcare professions. It is therefore essential that you fulfil the requirements set out in the following General Medical Council (GMC) and Health & Care Professions Council (HCPC) documents:

- *Achieving good medical practice (2016)* (GMC)

- *Professional behaviour and fitness to practise (2016)* (GMC)

- *Guidance on conduct and ethics for students (2016)* (HCPC)

In addition, you must read and understand all Hull York Medical School Regulations, Codes of Practice, and Policies which govern the MSc in Physician Associate Studies programme (http://www.hyms.ac.uk/about-us/regulations-policies-and-codes-of-practice).
This Conditions of Training Agreement further highlights some important areas of your practice but please note, this is not intended to be exhaustive and all students are expected to be fully compliant with all GMC and relevant regulatory guidance and all HYMS Regulations.

The Hull York Medical School and the Universities of Hull and York have a duty to ensure that your conduct and practice meet the high standards expected of you as a physician associate student and as a future physician associate. Hull York Medical School also has a duty to ensure that no member of the public is harmed as a consequence of contact with a health professional student undertaking their training. At the start of each academic year, you are therefore required to confirm that you are fully informed of all the current regulations, policies and codes of practice and the GMC and relevant regulatory guidance as referenced above. You must inform the School immediately if there are any changes in your circumstances impacting upon your ability to practise within this governance within the academic year.

If you have difficulty in agreeing with any condition in this document, you must inform the Programme Team immediately via governance@hyms.ac.uk
